Ensenada, B.C. June 8th, 2009

Dear Homeowner

As you may know the Whale Watch Project is active as part of the Settlement Agreement reached with DUBCSA.

At the moment we have the preliminary drawing which happens to be a very nice design that will enhance the beauty of our mission.

The BHOA looks forward to having your input before a final drawing is approved.

Plans are available at the BHOA office, please stop by to see them and share your ideas with us. We will have a few days before the final drawings are ready.

The BHOA may be able to incorporate some feasible suggestions, ideas and concerns into those final drawings, in particular if received by or before June 22nd, 2009. For example, one member has suggested installing stationary mounted binoculars to aid in whale watching.

Come to the Office and Participate!

Respectfully,
Claudia Escalante

PS. Whale Watch Design attached. You can better understand it in the Drawing available in office.
